Professional Summary

M.Sc. Economics (Data Analytics) student with a strong foundation in economics, econometrics, data mining, quantitative reasoning, and data interpretation, along with practical knowledge of SQL, Python, R, Power BI, and Excel. Academic projects and specialization in Data Analytics have developed my ability to analyse complex datasets, apply statistical and econometric methods, and leverage Artificial Intelligence and Machine Learning techniques to identify patterns and generate meaningful insights. Seeking to apply these analytical and technical skills to solve business problems and support data-driven decision-making.

Education

M.Sc. Economics (Data Analytics)

Symbiosis School of Economics, Pune

expected 2027

B.A. in Economics

2025

National Post Graduate College, Lucknow University

Major: Economics & Psychology; Graduated with 6.5 GPA

Certifications

- Generative AI: Prompt Engineering Basics - IBM, Coursera
 - Applied Text Mining in Python – University of Michigan, Coursera
 - Social Media Data Analytics – University of Washington, Coursera
 - Deloitte Data Analytics Virtual Experience – Forage
 - Data Collection and Processing with Python – University of Michigan, Coursera
 - Using R for Geostatistical Geospatial Modeling – Case Western Reserve University, Coursera
-

Academic Projects

Crude Oil Price Forecasting using ARDL & ARIMA

March 2026

- Forecasted U.S. WTI crude oil prices using macroeconomic indicators through ARDL and ARIMA time-series models.
- Performed stationarity testing and interpreted forecasting results.

SQL Sales Data Analysis Project

April 2026

- Analysed retail sales data using SQL queries involving filtering, grouping, aggregation and joins to derive business insights.
- Identified category-wise sales trends and regional performance metrics through data analysis.

Power BI Sales Dashboard

April 2026

- Designed and developed an interactive Power BI dashboard to monitor sales, profit and category performance.
 - Created KPI cards, slicers and trend visualizations to support business reporting and decision-making.
-

Skills and Interests

- **Technical Skills:** SQL (SELECT, JOIN, GROUP BY, Aggregations), Python (NumPy, Pandas, Matplotlib), Power BI (Dashboards, Data Visualization), Excel, R, Time-Series Analysis, Data Mining, Statistical Analysis
- **Languages spoken:** English, Hindi
- **Activities and Interests:** Member of Insync, the college dance club, and participated in college dance activities and performances; Recreational badminton player; Journaling focused on personal reflection
